DARK FINE MULCH:

Fine Wood Chip Mulch, aged for a dark color. Recycled from trees, then screened to a small size, Dark Fine Mulch is a dark finish product with minimal nutrient content. Should be used as a top dress similar to Bark.

PACIFIC GARDEN MULCH:

A RECYCLED PRODUCT. A dark composted yard and garden waste that is very high in fertile nutrient elements, processed through a 1/2" screen. Excellent soil amendment or top dressing. Will also help to retain moisture.

SCREENED COMP MULCH:

Composted sawdust and cow/steer manure processed through 1/2" screen. Initially dark in color lightens to a light brown color. Excellent as a top dressing or soil amendment. Very high in nutrient elements and will assist in water retention.

CEDAR CHIPS:

2 1/2" cedar chips used as a ground cover in play areas, under swing sets, etc. Cedar retards the growth of vegetation. Helpful in dog runs to control fleas.
